

# What do **SigmaCamp**

## staff do in real life?

### A Q&A from the research vessel **Atlantis**

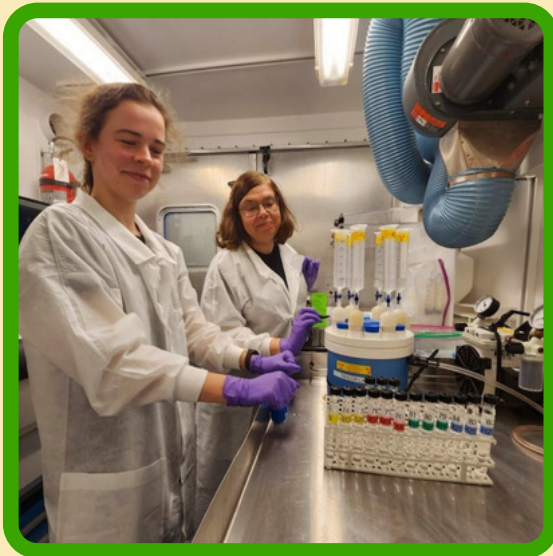

For more information:  
[info@sigmacamp.org](mailto:info@sigmacamp.org)

At SigmaCamp, **Lena Yakubovskaya** and **Natasha Butkevich** teach experimental biology. Throughout the year, they are marine biologists. Right now, they are on an expedition in the Pacific, aboard a specialized research ship **Atlantis**, studying the microbiology of "Oxygen Minimum Zones".

Join us via Zoom to experience a marine biology expedition!

- See the laboratories aboard the ship.
- Talk to the Captain of the Atlantis
- Participate in a unique Atlantis trivia (Kahoot!)

The event will include a Q&A about SigmaCamp, with participation of SigmaCamp staff, both those at sea as well as those on land.

Join us for this **once-in-a-lifetime Pi Day Event!**

**MARCH** | **14<sup>th</sup>** | **8:30 EST**
